

Dear Butler Township Residents,

We are a group of Slippery Rock University students working directly with the Township of Butler on the implementation of new, and updating of current, community recreational activities. In order to optimize recreational activities for the Township of Butler community, we are conducting community research and would like to invite residents to take part in a focus group on (2/8/2021).

The focus group should last no longer than 1 hour and will be held via Zoom. A Zoom link and more information will be provided should you decide you would like to participate.

During the focus group, we would like to answer the following questions:

- What recreational activities are you looking to see implemented in the Township of Butler?
- How could the addition of more recreational activities positively impact the Township of Butler and its parks?
- What are the best social media platforms to stay connected with local residents?
- And more

With your participation and the help of your feedback, the Township of Butler hopes to provide residents with activities and opportunities that suit both the present and future needs of the community for years to come.

Beyond this focus group, we will/will not contact you for additional or follow-up information. Your information is completely safe and confidential.

Sincerely,

Students of Slippery Rock University
